"TO HIM THAT OVERCOMETH WILL I GRANT TO SIT WITH ME IN MY THRONE, EVEN AS I ALSO OVERCAME, AND AM SET DOWN WITH MY FATHER IN HIS THRONE." REV.3:21

In this study we will look at Regeneration in nature and the Bible. This faith-building subject will show that science has now demonstrated the real potential of immortality within human cells. Then we will continue to look at the Subconscious Mind and expand from where we left off in the last issue "God-conscious."

In this issue:

- Science and Religion will they ever agree?
- Scientific Regeneration and Metamorphosis.
- You were a tiny cell at conception. How did you grow?
- Amazing Regenerating in Nature!
- A Salamander can regenerate missing legs, tail, and much more!
- When 5 legs of a starfish are cut off, the result is 5 new starfish!
- Regeneration like Immortality is for the BODY!
- The Subconscious Mind and Regeneration.
- How do birds migrate thousands of miles. How did that cat find its way back home?
- Blindfolded homing pigeons!
- The immortal cells? Read it for yourself in an article from the encyclopedia.
- Genetics, Eugenics and Mono-Genes.
- Jesus used the word Regeneration! It appears only twice in the NT.
- Metamorphosis is to the Butterfly what Regeneration is to the Salamander.
- Renewal, Regeneration & the Repeater.
- Womb & Tomb. They are they connected!
- Two Stones and the Tomb of Jesus.
- The word "Ark" is also translated as a coffin!
- Say No More the ARK of the LORD…Jer. 3:16!
- The Parable of a Masculine Priesthood & a Feminine Tabernacle.
- The "Birds and the Bees," Spiritually speaking!
- Hidden Manna, White Stone and a New Name!
- God thinks you are READY for the Hidden Manna!

Matthew 19:28 And Jesus said unto them, Verily I say unto you, That ye which have followed me, in the regeneration when the Son of man shall sit in the throne of his glory, ye also shall sit upon twelve thrones, judging the twelve tribes of Israel. (KJV)

ISSUE # 4: THRONEWORD

Over the centuries Science and Religion have not been the best of friends. In general Science is based on induction (gathering facts to prove a point) while Religion relies upon deduction (belief or faith without proof.) Before a scientist accepts an idea it must be able to withstand every possible angle of scrutiny. Often things, which were accepted as "scientific facts" were later proved to be wrong. Things like the old idea that the world
was flat. If you tell a scientist something he wants proof! He will get out a magnifying glass or an electron microscope in order to check out a theory.

Religion on the other hand has had quite the opposite mode of operation. Beliefs and doctrines have been accepted at face value. This has been called faith. We have God’s word and we know God is right! Therefore we accept his word and deduce from there. The real problem is that God’s word is open to man’s interpretation. These interpretations result in doctrines (or what science would call theories or hypothesis). People accept these doctrines as being God’s word when they are just man’s ideas.

The question should be asked, "Why rules of proving theology is not based (more rigorous) like the rules of proving Science?"

Some Christians take pride in the fact that their denomination is one of the oldest. Their beliefs are "sacred cows" which cannot be touched or changed. It would be like a science club (denomination) today which still believes that the world is flat. We need to shake the foundations of every creed or doctrine. This can be done without shaking your faith in God! Some people don’t even see a difference between God and Church doctrine. Unfortunately you just can’t put a doctrine in a test tube and run some experiments on it.

Science demands physical proof from Religion, while Religion wants Science to confirm their pet doctrines. The two often collide and hence the feud! With the revelation of more truth and knowledge both science and religion are going through changes.

Since the Religious community cannot agree among themselves and the Science community cannot agree among themselves...it is no wonder that science and man’s theology disagree. Science wants to take physical laws and apply them to the spiritual. This is like trying to prove a proposition in math by citing a rule of grammar! Yet, truth is truth. When Science discovers a truth it will never conflict with or threaten spiritual truth or vice versa.

God does exist and this will be proven to the scientific community some day soon. Every major scientific discovery will only lead them closer to the Most High God. Religion has nothing to fear from any scientific truth. No truth is inconsistent with another truth.

Nothing science can discover will ever negate Gods truth! Spiritual truths are real as a granite mountain!

So it is our quest to search out these real spiritual truths with the vigor of a research scientist after the meaning of life! It is time to re-search the scriptures!

There are those of us who believe in a God who is able to provide a generation with immortality. A group of sons who will not physically die but live forever! What does science say about immortality? Science is able to study and experiment with things in nature like:

**METAMORPHOSIS AND REGENERATION**

Scientists and Researchers have made many amazing discoveries in the field of Regeneration just in the last 10 years! This study will attempt to connect Regeneration with the Subconscious Mind. The Subconscious Mind is really the God conscious Mind.

There is a big difference between the Conscious Mind and the Subconscious Mind.

It’s our goal to have the Mind of Christ, overcome every enemy even death and sit on the throne!

**Revelation 3:21** To him that overcometh will I grant to sit with me in my throne, even as I also overcame, and am set down with my Father in his throne.

**1 Corinthians 15:26** The last enemy that shall be destroyed is death.
Philippians 2:5 Let this mind be in you, which was also in Christ Jesus:

Immortality can mean different things to different people. Woody Allen once said, "I don't want to achieve immortality through my work... I want to achieve it through not dying." That's the kind of immortality I am talking about. Not dying in the body makes one immortal. God has reserved this for a certain generation.

This is an excerpt from an article on Aging in the-Grolier Encyclopedia: Aging, or senescence, is a widespread biological phenomenon that occurs in all higher organisms and in many of the lower ones. Its signs usually are a decrease in such functional capacities as the metabolic rate, the ability to sense and respond to stimuli, and the ability to move and also to reproduce. Aging organisms also have an increased susceptibility to disease, injury, and predators. In contrast, protoplasm—the living substance that makes up both the cytoplasm and nuclei of cells--appears to be potentially immortal.... Invertebrates within the phylum Protozoa--organisms that consist of a single cell--are numerous species that reproduce by fission and in which some investigators have observed a real or potential immortality. [© 1993 Grolier Electronic Publishing Inc.]

WOW! Did you read that!? Science is seeing the real potential for IMMORTALITY!

Science is now simply verifying what we see as truth. Immortality will happen to some generation. It is a plan of the Most High God, which cannot fail. We knew immortality was possible before science discovered it, because God's word said so!

The worm and the butterfly are a type, showing the metamorphosis the Sons of God will experience.

Metamorphosis and Regeneration are connected. They are both for the BODY! The same logic that permits us to relate the Metamorphosis concept with the Sons of God, also allows us to apply the principles of Regeneration! Both are scriptural concepts which help us to understand exactly what will happen to our physical bodies when they change!

Traditional religious thinking associates Regeneration with the spirit! I want to challenge that thinking and say that it is for the BODY...just like metamorphosis!

Question: What do the Butterfly and the Salamander have in common?  
Answer: They both go through a cellular metamorphosis.

What the butterfly is to metamorphosis, the salamander is to regeneration.

Regeneration (like immortality) is for the BODY. It is the ability for an organism to replace any damaged or lost parts. Regeneration in the plant kingdom is common. If you cut your grass it will grow back. This is a form of regeneration. The grass cells multiply by dividing in two. This process is called "cell division." That's how grass grows.. Usually in about a week then you need to cut the grass again.

Science understands cell division or mitosis but can not explain what organizes the process. Could it be the Subconscious mind?

Each person reading this has already overcome some pretty tough odds! 200,000,000 to 1. That's how many sperm released when you were conceived! Only one sperm out of 200 million makes it to fertilize the egg!

Congratulations! That was you! You were the very best of 200 million!

We are made up of tiny cells. In fact at one time you were one cell, a single egg, which had just been penetrated by a sperm. The nucleus of the egg and sperm united to become one complete cell. That was you at one time. Then you divided and you were two identical cells. There is no difference between these two
cells. Those two cells divided into four and four into eight and so on. But it is important to note that each cell is still an exact copy of every other one. There is no DIFFERENCE yet.

**Question:** So if the cells are exactly the same how do they become different? How do some turn into "bone" cells, "skin" cells, "blood" cells etc.?

There comes a point where cells must become DIFFERENT. Some must develop into bone cells others into skin cells etc. Every single cell has all the instructions for a complete human body. At this point the embryonic cells go through a process called Differentiation!

Think of all the Different cells needed to make up a human. Brain cells, heart cells, liver cells, nerve cells muscle cells, hair cells, bone cells…etc. So now we have cells that are exactly alike changing into the form of a human body. This is done with precise organization. What orchestrates this complex task?

What causes a single cell to divide into many cells (which are exactly alike) then transform into different adult cells?

Science cannot answer this question. What unseen force is it that brings organization to cells? I believe it ultimately is God. It is he who created the Subconscious Mind. The Subconscious Mind is hard for science to deal with because they can’t put it in a test tube.

Up until recently the parapsychology field was not considered a valid science. This has all changed!!! Organisms are living cells, which are not randomly operating. There is a definite organization to the cells. They are called "organisms" because they are organized!

When you cut your finger what happens? You wash it off put, a Band-Aid on it and forget about it. Well your conscious mind may forget about it but not the Subconscious. It organizes the necessary cells for repair of the wound. Before long it’s healed! It’s a true miracle of healing. Even a tiny cut repaired is a miracle. Next time you cut your finger and it heals tell someone about the miracle God performed in your life!

Your Subconscious Mind has control over the cells of your body. It is directly connected with the process of Regeneration. The Regeneration of limbs and organs is more complex than simple cell replacement like in plants.

When a crayfish loses a claw it soon regenerates a complete new claw. This involves replacing many different types of cells.

When a limb of a Salamander is lost it is replaced with a new one. This involves a much more complex Regeneration than grass under goes. How does the Salamander replace cells that are missing? If there are no "finger" cells to divide how does the Salamander create new ones?

True regeneration has the ability to replace missing parts of the Body! What is it that orchestrates this life perpetuating ability to restore that, which was lost? I believe it is the God-Conscious Mind.

Dr. Robert Becker was experimenting in the field of Regeneration when he made quite a monumental discovery. He demonstrated the ability of cells to transform from one cell type to another. He scientifically proved that cells go through a Metamorphosis during the process of Regeneration! In other words he proved that regenerating cells were adult cells changing back to an embryonic like state. (Like the ones which were exact copies of the single egg cell.) Then they were re-assigned to become whatever cell was needed for the new limb.

Why is this important to us? Because it proves that any missing organ or limb can...yes can be replaced! The point at which human cells change (from all being the same) and become Different cells of the body is called Differentiation.
Dr. Robert Becker proved in the laboratory that cells could De-Differentiate! He proved that cells could change back to an embryonic like state and then transform into any other cell! This was very exciting to me because I feel this is scientific proof that immortality is really possible. Science is only verifying what God is going to do.

How did Adam and Methuselah live nearly a 1,000 years? Does the God-Conscious Mind hold the key to the manifestation of the Sons of God?

How does a worm regenerate a new Head when it is severed? What organizes the exact replacement of all the same parts?

How does a Starfish which has 5 legs severed...grow into 5 complete Starfish?!? There are some sea animals that can expel their entire digestive tract and simply grow all new organs! (There have been times I wish I could do that-ha!)

THE SALAMANDER AND YOU

The salamander is a remarkable creature. It has some amazing regenerative abilities! The reason the salamander is important to us is the similarities in our design. It has a skeleton like ours including Skull, spinal column, arms, hands, and fingers. It also has a central nervous system, heart and bloodstream. A salamanders system is as complex as ours. This is something we can relate to. Simpler organisms like worms or starfish have very different systems. The Salamander gives us great encouragement that our system can regenerate too!

In a scientific experiment a salamander regenerated all of its limbs and tail 6 times in three months! The Salamander performed true limb renewal with exact precision. Can you imagine if your arms and legs were severed and grew back 6 times in three months! Wow! The Salamander has even more amazing regenerative abilities than that!!!

Dr. Becker noticed that the cells which formed at the end of a regenerating limb highly resembled embryo cells (cells that have not differentiated yet). The salamander continued to show even more amazing abilities of regeneration. It could regenerate missing organs and replace up to approx. 50% of its Heart and Brain! Yes you heard right. Salamanders routinely had 50% of their Heart and Brain removed and they grew back perfectly!!! This was done scientifically, in a laboratory.

Can you imagine that same regenerative ability working in your body?

HUMAN REGENERATION

When you break a bone you put it in a cast and the bone regenerates. This is a true form of Regeneration. When someone looses a finger the doctor can sometimes sew it back on. But when it heals usually there’s a knot or bend and the nail grows back funny.

At the emergency room of Sheffield Children’s Hospital in England (in the early 1970’s), a child was scheduled for a finger to be re-attached that he had lost. Somehow there was a mix up and the child never was sent in to the surgeon. A nurse put a bandage on it. It was a few days until the oversight was noticed. When Dr. Cynthia Illingsworth examined the child’s finger she noticed the finger was starting to Regenerate! They watched as the finger completely regenerated into a perfect replacement. There was no bend and the nail grew perfectly.

This was true multi-tissue Human Regeneration! The cells were metamorphosing into the needed bone, nerve, muscle and skin cells! For example a "blood" cell could change or transforms and become a "finger nail" cell! Remember that every cell has the complete instructions for a complete human body! By 1974 Dr. Illingsworth documented hundreds of cases of fingertip regeneration in children.

In the US it is rarely practiced! Doctors just can’t believe it works! Even today! They are so stuck in their tradition they refuse to see something new! Sound familiar?
Doctors noticed that regeneration worked best in children and animals. It’s no coincidence that children are in the Subconscious realm. They are only developing their conscious minds.

**CANCER CELLS RETURNED TO NORMAL THROUGH REGENERATION!!!**

Cancer cells multiply at a rapid rate. In fact they multiply out of control! They don’t stop multiplying. Human cells multiply when regeneration occurs but there is control. They stop multiplying when there are exactly enough cells to replace the missing part. The Subconscious Mind is what controls this function. It starts and stops the process of Regeneration.

Cancer cells changed, metamorphosed into healthy Bone cells!!! When researchers wanted to study the affects of cancer in a salamander they ran into a problem. Cancer just cannot naturally be found in any salamander! They had to take cancer cells from a frog. The frog had kidney cancer. The frog’s cancer cells were implanted in the forearm of a salamander. The cancer started to spread. The salamander’s forearm was amputated where the cancer was. Part of the cancer remained on the amputated stump. As the salamander’s limb regenerated a remarkable thing happened!

The salamander took the frog’s cancer cells and transformed them into new healthy bone cells!!! There was no mistaking the frog cells because their nucleus was 2-3 times larger than any cell in a salamander. They were very obviously attached to the salamander’s new healthy bone. The cancer cells reverted back to an embryonic state and were re-assigned to become healthy bone cells!

Or scientifically the cells:

1. De-Differentiated and formed an embryonic like blastema then they
2. Re-Differentiated or were metamorphosed into replacement cells of any kind which were missing!

These are all scientifically documented in a book by Robert O. Becker, M.D., called "The Body Electric."

I have oversimplified the concepts to help understand them. He pioneered the idea that cells could De-Differentiate (transform or Metamorphose). His book was written in 1985.

Regeneration is a God given ability! It is a function of the God Conscious Mind. It can take that which is bad and transform it into good.

When we see a caterpillar transform into a butterfly we draw spiritual parallels of how we will transform into a creature of beauty and become exactly like Jesus our older brother.

Jesus was transfigured (metamorphosed) on the mount and his BODY shone like the sun. We see many beautiful truths when we examine the metamorphosis of the butterfly.

In 1952 a Harvard scientist named Carroll Williams made some fascinating findings concerning metamorphosis. These appeared in an article in Life Magazine for Feb. 11, 1952. They found that if a caterpillar’s brain was removed it would continue to live as a worm but no metamorphosis occurred. (Sounds like a couple of preachers I know! Ha.)

They also took a caterpillar and tied it in half with a string, isolating the thorax from the head. That also resulted in no sign of metamorphosis. But when they injected hormones from the thorax into the upper half where the head was, the upper half went into metamorphosis. Likewise when they injected hormones from the brain into the lower half of the thorax, the lower half of the caterpillar went into metamorphosis. What they really discovered was that in order for metamorphosis to begin both the "brain/mind" and the "thorax/heart" were essential.
That is to say the Brain or Soul and the Thorax or Spirit plays an important part in our transformation. There must be a union of both Spirit and Soul for this metamorphosis to occur! Yet the butterfly will someday die. Does this stop us from believing in immortality? No. Some day death will be overcome. Death is an enemy and should be treated as such. Never say die!

1 Corinthians 15:26 The last enemy that shall be destroyed is death.

The little salamander should build our faith as we learn more about Life and Regeneration. Make no mistake about it, Human Regeneration is possible! The salamander is to regeneration what the butterfly is to metamorphosis.

How could a man with one arm receive a glorified body unless regeneration first takes place? How could those who have had organs removed be restored to perfect health unless regeneration occurs first? How could that one who has cancer take those bad cells and transform them into healthy cells unless regeneration first takes place? This is not only possible but is has been demonstrated over and over in the laboratory by competent professionals.

I now believe that the Subconscious Mind will start the regeneration processes in the Sons of God at the appointed time – very soon.

Even today Doctors see the convincing evidence that cancer patients who employ techniques like visualization and biofeedback have greater recovery potential. They are using their Subconscious Mind. You can too! God created it for his glory. He is awesome and so is his creation. We need to submit the Subconscious to the word/seed of the Most High God.

How do birds know to migrate thousands of miles and return to the exact same spot? How does a salmon that is hundreds of miles out in the ocean return back upstream to the same river it was born in? What organizes a bear's metabolism during hibernation? How did that cat or dog find its way home all the way across town? Some have traveled hundreds of miles to get back home!

Could it be the Subconscious Mind?

blindfolded – homing pigeons

An experiment was conducted on some homing pigeons to try to find out how they navigated. How were they able to get back home over land they never saw before?

Tiny dark contact lenses were placed over the eyes of some homing pigeons. They were virtually blinded because they could not see out of the opaque contact lenses. They were taken hundreds of miles away and released. They wanted to see if the birds navigated by sight or not. To everybody’s amazement the pigeons flew back home. When they got over the area where they nested, they began to fly in a circle. The circles they flew grew smaller and smaller until they made a perfect landing, totally BLIND!!! How did they do that? Don’t they know that’s impossible? NO! They just do it! It is the power of the subconscious mind! I hope this is building your faith to believe that the things we have been searching for are attainable! God would not dangle a carrot in front of his sons. These things will happen. Regeneration will occur.

Animals have a conscious mind and a subconscious mind. They do NOT have a spirit, that’s what makes us different from them. Animals can also be hypnotized. Their conscious minds can be put to sleep just like humans.

Everyone experiences daydreams. The word "daydream" has a pleasant connotation. The phenomena we call daydreaming is exactly the same as a state of hypnosis. It is simply when the Conscious Mind sleeps. People will readily admit they daydream regularly. If you ask those same people if they had ever been in a state of hypnosis they would usually reply emphatically NO! It really is the same state of mind. In fact dreaming, day or
night, is a function of the subconscious mind. Did you ever see a dog or cat have a dream? As they dream about running their feet will move in sync. Animals have a subconscious mind too.

When the police rode horses back before the turn of the century shoeing them was a major job. After the discovery that animals could be hypnotized or put into a trance, the police department hired a man to hypnotize the horses to make the job of replacing horseshoes safer and easier.

Snake charmers in India use hypnosis on the cobras and other snakes. Even some Pentecostals have handled poisonous snakes! "Snake Handlers" gather around the alter in church and pick up rattlesnakes! Anyone feeling religious? Lucky for them the snakes are usually in a trance from the music and movement! It really is no proof of their holiness, as they wrongly believe.

The lions in with Daniel were placed in a trance by the Lord. The lions were calm because their conscious minds were sleeping.

The same principle applies to the great fish that swallowed Jonah or the animals in Noah’s Ark.

How does communication take place with the animals? How did the fish all end up in the net when Jesus said cast your net on the other side?

**John 21:6** And he said unto them, Cast the net on the right side of the ship, and ye shall find. They cast therefore, and now they were not able to draw it for the multitude of fishes. (KJV)

How did the fish know to pick up a coin and bring it to Jesus to pay the taxes?

**Matthew 17:27** Notwithstanding, lest we should offend them, go thou to the sea, and cast an hook, and take up the fish that first cometh up; and when thou hast opened his mouth, thou shalt find a piece of money: that take, and give unto them for me and thee. (KJV)

How can the lion lay down with the lamb? There will be a communication in common with all creation.

It makes sense that God would speak directly to their subconscious mind like he does to us. Whether he tells a cock to crow three times or a ram to appear to Abraham there’s a definite direct communication happening.

**Genesis 22:13** And Abraham lifted up his eyes, and looked, and behold behind him a ram caught in a thicket by his horns: and Abraham went and took the ram, and offered him up for a burnt offering in the stead of his son. (KJV)

Jesus talks to a tree! The subconscious seems to be present in all life forms. Jesus even spoke to a tree and it withered. Did the tree hear and understand him?

**Matthew 21:19** And when he saw a fig tree in the way, he came to it, and found nothing thereon, but leaves only, and said unto it, Let no fruit grow on thee henceforward for ever. And presently the fig tree withered away. (KJV)

**POWER TOOL**

The Subconscious Mind is very powerful. God created it with all its abilities. To attribute the miraculous feats to the subconscious mind is really saying God does them.

He created it and whatever the subconscious can do only gives God the glory. The question is what will we use it for?

Some people daydream about winning the lottery! How that would change their lives. Is dreaming bad? Is it wrong to dream about what the New Kingdom will be like? Without a vision the people perish. What is your
vision? The visions and dreams that come from the Spirit are good. The dreams and visions coming from the Soul (or a late night pepperoni pizza) are generally useless.

Where there is no vision the people perish. This infers that where there IS a vision from God the people will NOT PERISH. So keep your visions and dreams on the words and promises of the Most High because there will be a people who will not perish!

Most people don’t even consider their subconscious mind. They may live their entire life without giving it a second thought.

What is the "Latent Power of the Soul" that Watchman Nee wrote about? What role will the power of the subconscious mind play in the last days?

The US government knows all about the power of the subconscious. This year we spent $20 million dollars on "Psychic Spies." They were used to locate Khadaffi, find plutonium in Korea and used in various DEA efforts!!! Advertising agencies are very much aware of the power of the subconscious mind. They would use subliminal advertising if they could. Subliminal advertising bypasses the conscious mind! The reason it is outlawed is because it is so effective.

It seems logical to me that the Sons of God will first experience a physical Regeneration and then Metamorphose to a state of immortality. Perhaps they are simultaneous.

This regeneration will involve the Subconscious Mind! It will result from the union of the Spirit and the Soul. The word "regeneration" appears only 2 times in the New Testament. Jesus used it once! I believe he chose his words carefully don’t you?

Matthew 19:28 And Jesus said unto them, Verily I say unto you, That ye which have followed me, in the regeneration <3824> when the Son of man shall sit in the throne of his glory, ye also shall sit upon twelve thrones, judging the twelve tribes of Israel.(KJV)

Jesus said…the ones who get the thrones will go through a Regeneration!!!

Regeneration is for the physical BODY! What is it that sits on a throne? A physical BODY.

Immortality is for the physical BODY. Glory is for the physical BODY.

Romans 2:7 To them who by patient continuance in well doing seek for glory and honor and immortality, eternal life: (KJV)

The word regeneration or paliggenesia comes from two root words, #3825 & #1078. #3825 palin {pal'-in} probably from the same as 3823 (through the idea of oscillatory repetition); adv AV - again 142; 142

1) anew, again
1a) renewal or repetition of the action
1b) again, anew
2) again, i.e. further, moreover
3) in turn, on the other hand

Repetition is a function of the Subconscious Mind. The Repeater is a function of the subconscious which repeats songs, words or phrases 24 hrs. a day. The fact that cells regenerate or repeat exact copies of themselves indicates the involvement of the Subconscious mind.

The other root word in regeneration is #1078 genesis or gene. 1078 genesis {genh'-es-is} from the same as 1074; n f 1074 genea {genh-eh-ah'} AV - generation 37, time 2, age 2, nation 1; 42
1) fathered, birth, nativity
2) that which has been begotten, men of the same stock, a family

Regeneration means: to make new again in the genes or generation!

**Titus 3:5** Not by works of righteousness which we have done, but according to his mercy he saved us, by the washing of regeneration, and renewing of the Holy Ghost;

This is the only other verse where we find the word Regeneration. It is closely associated with the word Renewing – renewing – 342 anakainosis {an-ak-ah'-ee-no-sis} from 341;n f AV - renewing 2; 2

1) a renewal, renovation, complete change for the better
   341 anakainoo - {an-ak-ahee-no'-o} v AV - renew 2; 2
   1) to cause to grow up, new, to make new
      1a) new strength and vigor is given to one
      1b) to be changed into a new kind of life as opposed to the former corrupt state

This process of renewal or regeneration involves cell changes which are perfectly reproduced like the original! Everything that is missing will be regenerated! Everything Adam lost will be exactly replaced!

Scientists say we only use 10% of our brain. That will change soon! How do cells duplicate themselves and then transform into different cells? The subconscious has a repeating nature. Cell instructions are contained in a spiraling double helix called DNA.

Could the "repeater" of the subconscious mind be closely connected to the way cells regenerate? I believe it is. Every cell has the complete set of instructions for a complete human body. A bone cell could become a brain cell or a nerve cell if it needed to! Why? Because it has a complete set of instructions for every cell in the body. These instructions are called DNA.

Genes are a select portion of those instructions. Cells differ when certain instructions are turned on or off. It is a lot like a toggle switch. A bone cell has all the toggle switches turned off except those instructions needed to become a bone cell. A bone cell still contains the information to become let's say a nerve cell. It is just that those nerve cell instructions have been toggled off. In fact a bone cell could become any cell in the human body if the right toggles are switched on! Therefore, if you needed a new limb or organ your Subconscious mind could organize their replacement. It could take some extra cells in your body and Re-toggle them to change into the type of cells you are missing! This has been demonstrated in a scientific lab.

Cloning is the production of a group of genetically identical cells or organisms. All the members of the clone have precisely the same characteristics. Would you like to become a clone of Jesus?

**MONOGENES**

**John 1:14** And the Word was made flesh, and dwelt among us, (and we beheld his glory, the glory as of the only begotten <3439monogenes> of the Father,) full of grace and truth.

Jesus is called the monogenes of the Father. From these genes came the man Jesus Christ. Those genes were a result of the Word. The Word became flesh and had the genes of the Father. We have the same Word alive in us today! It is this Word/Seed which contains the Monogenes of the Father!

**Psalm 82:6** I have said, Ye are gods; and all of you are children of the most High.

Jesus was the first-born or the prototype. There will be those who will become like him!
1 John 3:2 Beloved, now are we the sons of God, and it doth not yet appear what we shall be: but we know that, when he shall appear, we shall be like him; for we shall see him as he is.

Psalm 17:15 As for me, I will behold thy face in righteousness: I shall be satisfied, when I awake, with thy likeness.

GENETICS and EUGENICS

The idea of a supreme race of humans was first tried in Sparta and Athens. The Spartans matched the most physically perfect male with the most physically perfect female to come up with a race of superior humans. The Athenians matched the intellectual and mentally superior males and females to come up with a superior race.

This was the beginning of a concept, which later became known as Eugenics. Eugenics was the attempt to come up with the perfect male and female combination.

Today frozen sperm from various geniuses in Math, Physics, Neural Surgery, Science etc., are kept in banks and matched with other geniuses of the female persuasion. This is a type of genetic engineering.

SPIRITUAL EUGENICS

The only way to come up with a superior group of humans called the Sons of God is by uniting the perfect male Spirit with the perfect female Soul. This will produce the perfect man child the Sons of God. They will have the Mind of Christ and be like Jesus. They will have been transformed in their physical bodies to an immortal state. They will have the monogenes of the Father.

They in turn will rule and reign on earth. They will grant mercy and love from God’s throne. They will have a glorified BODY. The union of the Spirit and Soul is more specifically defined as the union of the masc. Heart and the fem. Subconscious Mind. The word is the seed/sperma.

1 Peter 1:13 Wherefore gird up the loins of your mind, be sober, and hope to the end for the grace that is to be brought unto you at the revelation of Jesus Christ; (KJV)

The Subconscious Mind is like a womb. The thoughts and ideas planted there will grow. I want thoughts of life, regeneration, love, metamorphosis, mercy, the Mind of Christ and immortality to repeat in my subconscious.

John 14:12 Verily, verily, I say unto you, He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father. (KJV)

We don’t see anyone doing the works that Jesus did let alone greater. We want to be able to heal the sick and clear out the hospitals. We want to raise the dead and restore life. In time I believe we will do these things. We need serious changes in our Soul/Minds. You don’t give the car keys to a 13 year old. When we are ready and in God’s timing we will be manifested.

When will all these changes take place? Will this take place in a corporate or individual setting? Will everyone go through this at the same time? When will this begin? I simply don’t know?

We expect things to follow the pattern already set. At Passover Jesus was revealed, at Pentecost the Holy Spirit was revealed and at Tabernacles we expect the Father to be revealed!

There is one thing to consider. Jesus may have been giving us a hint as to the timing of this event –

John 4:35 Say not ye, There are yet four months, and then cometh harvest? Behold, I say unto you, Lift up your eyes, and look on the fields; for they are white already to harvest. (KJV)

Perhaps it will even come sooner than we expect. Maybe the "appointed time" is like a doctor’s appointment, where everyone has their own individual time. Perhaps there are those who already have entered into that realm and remain anonymous. It is hard to say.
One thing for sure is that it will happen to some generation. When this does begin to happen I believe we will know it!

There is the concept of a hidden or concealed pregnancy to consider. While our Conscious Minds may not realize it, we could have the word growing and conceiving in the womb of the Subconscious mind. The Union of the Spirit and the Soul is for those who have matured and are capable of producing the man-child.

In the last issue called "God Conscious" we established that the Tabernacle of Moses was a parable of a feminine body. Even today we refer to the church as a woman. The tabernacle has sides which are the Hebrew equivalent of shoulders, ribs and thighs.

Further study showed that the Most Holy Place was a parable of a Womb! This was related to the Womb or Loins of the Mind and the Subconscious Mind.

The Heart is to the Spirit what the male organ is to the man. That’s why it’s the circumcision of the Heart. The High Priest was a parallel to an upright Heart/Spirit who made entrance into the womb of the Most Holy Place.

The entire picture of the masculine Priesthood and the feminine Tabernacle is a parable of the Union of the Spirit and Soul within each of us! The picture is very clear when you finally see it. It is a mystery if you cannot see it. The Spirit and Soul will unite and become one. Then we can be led by the Spirit and not our Soul.

**Ephesians 5:31-32** For this cause shall a man leave his father and mother, and shall be joined unto his wife, and they two shall be one flesh. 32 This is a great mystery: but I speak concerning Christ and the church. (KJV)

When the fleshly foreskin of the Heart is removed the Heart is circumcised. This allows the blood of Jesus to bring righteousness or uprightness to the Heart. The Heart can then stand erect. (It’s the blood which causes the male organ to stand erect.)

**Hebrews 10:19-20** Having therefore, brethren, boldness to enter into the holiest by the blood of Jesus, Penetration to the womb of the Most Holy Place is possible after the circumcision of the Heart.

**A HIGH PRIEST IS A PARABLE OF AN UPRIGHT HEART**

**Psalm 97:11** Light is sown for the righteous, and gladness for the upright in heart. (KJV)

**Psalm 7:10** My defense is of God, which saveth the upright in heart. (KJV)

**Psalm 32:11** Be glad in the LORD, and rejoice, ye righteous: and shout for joy, all ye that are upright in heart. (KJV)

**Psalm 36:10** O continue thy loving kindness unto them that know thee; and thy righteousness to the upright in heart. (KJV)

**Psalm 64:10** The righteous shall be glad in the LORD, and shall trust in him; and all the upright in heart shall glory. (KJV)

**Psalm 111:1** Praise ye the LORD. I will praise the LORD with my whole heart, in the assembly of the upright, and in the congregation. (KJV)

**Proverbs 11:20** They that are of a forward heart are abomination to the LORD: but such as are upright in their way are his delight. (KJV)

The High Priest’s kept falling over dead, going limp in the Most Holy Place! They had righteousness problems. Any imperfection and they died!

Jesus is our High Priest! His blood brings righteousness or uprightness to our Heart.
If we rely on our own righteousness to stand in the Holy of Holies we will die. Spiritual righteousness only comes from the blood of Jesus. False righteousness comes from keeping this or that rule or law. You think you are righteous because you do this or don’t do that.
